A Volcano Beneath the Snow - Albert Marrin 2014-04-08

John Brown is a man of many legacies, from hero, freedom fighter, and martyr, to liar, fanatic, and "the father of American terrorism." Some have said that it was his seizure of the arsenal at Harper's Ferry that rendered the Civil War inevitable. Deeply religious, Brown believed that God had chosen him to right the wrong of slavery. He was willing to kill and die for something modern Americans unanimously agree was a just cause. And yet he was a religious fanatic and a staunch believer in "righteous violence," an unapologetic committer of domestic terrorism. Marrin brings 19th-century issues into the modern arena with ease and grace in a book that is sure to spark discussion.

A Time of Love and Tartan - Alexander McCall Smith 2017-07-27

Catch up with the delightful goings-on in the fictitious 44 Scotland Street from Alexander McCall Smith . . . 'A joyous, charming portrait of city life and human foibles, which moves beyond its setting to deal with deep moral issues and love, desire and friendship' Sunday Express If only Pat Macgregor had an inkling of the embarrassment romantic, professional, even aesthetic that flowed from accepting narcissistic ex-boyfriend Bruce Anderson's invitation for coffee, she would never have said yes. And if only Matthew, her boss at the art gallery, hadn't wandered into his local bookshop and picked up a particular book at a particular time, he would never have knocked over his former English teacher or attracted the attentions of the police. Whether caused by small things such as a cup of coffee and a book, or major events such as Stuart's application for promotion and his wife Irene's decision to go off and study for a PhD in Aberdeen, change is coming to serial fiction's favourite street. But for three seven-year-old boys Bertie Pollock, Ranald Braveheart Macpherson, and Big Lou's foster son Finlay - it also means a getting a glimpse of perfect happiness. Alexander McCall Smith's delightfully witty, wise and sometimes surreal comedy spirals out to include tennis-playing Rwandan Forest People, researches into levitating Celtic saints, bogus headhunters in Papua New Guinea and primary school performances of Beckett. But its heart remains where it has always been true to life, love and laughter in Edinburgh's New Town.

A Well-Lived Life - Sylvia F. Crocker 2013-04-15

Sylvia Crocker's *A Well-Lived Life* is a work of a daring and creative thinker, offering a bold reconceptualization of Gestalt therapy that extends all the way from its philosophical foundation to the nuances of its clinical application. In prose that is clear as a bell, Crocker fully exposes the depth and power of Gestalt therapy's field theoretical model, deftly moving from individual to larger systems work and back again, and capturing the full range of human psychological phenomena as she goes. From the acquisition and maintenance of simple behavioral habits, to the construction of personal narrative and myth, Crocker's Gestalt therapy model is equally at home and applicable. Her vision of Gestalt therapy is at the same time startingly unique and comfortably familiar. She is firmly rooted in Gestalt Therapy's 'phenomenological

behaviorism, " but at the same time offers us a model for assessing and working with self functions which is remarkably creative, and represents an important new contribution to the field. And throughout the text, interpolated between her provocative theoretical formulations, we encounter Crocker the clinician - moving straight ahead, getting right at the issue, making sense, and all the while, concretely instructive regarding the nature of the work. This is a book that will make a difference, challenging the way we think about the practice, the craft of psychotherapy.

The State of Food and Agriculture, 2006 - Food and Agriculture Organization
2006

International food aid has rightly been credited with saving millions of lives and is often the only thing that stands between vulnerable people and death. However, it was a serious obstacle in the Doha Round of multilateral trade negotiations and has been sharply criticised as a donor-driven response that creates dependency on the part of recipients and undermines local agricultural producers and traders upon whom sustainable food security depends. This issue of the 'State of Food and Agriculture' report examines the issues and controversies surrounding international food aid, particularly in crisis situations. It considers the ways in which food aid can support sustainable improvements in food security, in order to preserve its essential humanitarian role whilst minimising the possibility of harmful secondary impacts.

A Word from Our Sponsor - Cynthia B. Meyers 2013-12-01

During the "golden age" of radio, from roughly the late 1920s until the late 1940s, advertising agencies were arguably the most important sources of radio entertainment. Most nationally broadcast programs on network radio were created, produced, written, and/or managed by advertising agencies: for example, J. Walter Thompson produced "Kraft Music Hall" for Kraft; Benton & Bowles oversaw "Show Boat" for Maxwell House Coffee; and Young & Rubicam

managed "Town Hall Tonight" with comedian Fred Allen for Bristol-Myers. Yet this fact has disappeared from popular memory and receives little attention from media scholars and historians. By repositioning the advertising industry as a central agent in the development of broadcasting, author Cynthia B. Meyers challenges conventional views about the role of advertising in culture, the integration of media industries, and the role of commercialism in broadcasting history. Based largely on archival materials, *A Word from Our Sponsor* mines agency records from the J. Walter Thompson papers at Duke University, which include staff meeting transcriptions, memos, and account histories; agency records of BBDO, Benton & Bowles, Young & Rubicam, and N. W. Ayer; contemporaneous trade publications; and the voluminous correspondence between NBC and agency executives in the NBC Records at the Wisconsin Historical Society. Mediating between audiences' desire for entertainment and advertisers' desire for sales, admen combined "showmanship" with "salesmanship" to produce a uniquely American form of commercial culture. In recounting the history of this form, Meyers enriches and corrects our understanding not only of broadcasting history but also of advertising history, business history, and American cultural history from the 1920s to the 1940s.
