Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access Unlimited and free access for readers

No Copyright Constraints Retain copyright of your work and free use of your article

Impact Factor 2.592 (2018 Journal Citation Reports®)

Thorough Peer-Review

Coverage by Leading Indexing Services SCIE-Science Citation Index Expanded (Clarivate Analytics), SSCI-Social Science Citation Index Expanded (Clarivate Analytics), Scopus (Elsevier)

No Space Constraints, No Extra Space or Color Charges No restriction on the length of the papers, number of figures or colors

Aims and Scope

Our aim is to encourage experts to publish their experimental, computational and theoretical research on sustainability. This encompasses topics related to social sciences, natural and applied science and engineering, in order to enable the application and development of sustainability.

Subject Areas

- Defining, quantifying, measuring, and monitoring sustainability
- Environmental management and conservation
- Human–environment and human-sustainability relationships
- Sustainable economic development and business management
- Sustainability of energy resources
- Sustainable regional planning and development
- Food consumption and safety, and global population
- Sustainable agriculture
- Sustainable supply chains, logistics, and transportation
- Education for sustainability
- Sustainable tourism, culture preservation, and heritage conservation
- Relation of geographical changes and social development to sustainability
- Psychological aspects of sustainability and sustainable development
